

## Lead Audio Visual Engineer - South

We are currently seeking an experienced Engineer to work on commercial AV projects throughout the UK. The role will be working with clients across the South of England (mainly London based), but also working in the surrounding counties. However there will be occasional travel to Europe and further afield (should this be something you are interested in doing).

If you are looking for better benefits, a permanent and stable role, with opportunities for progression and the chance to work on some of the most advanced and exciting AV projects in the UK then please get in contact.

### The Role:

- Leading and organising a team of highly skilled Engineers
- Planning workloads, organising training and ensuring that the Engineers have the right tools for the job
- Deal with all aspects of interfacing Audio Visual systems within the clients buildings
- This will encompass both hardware and software interfaces
- Perform on-site commissioning and configuration programming in the systems and following/reviewing system schematics

### The Person:

We are looking for an experienced AV Engineer who has experience of working with commercial clients such as, Head Offices, Hospitals, Colleges, Retail etc. The successful candidate will have exceptional customer service skills and will understand the importance of professionalism whilst on site and client facing.

### Additional Information:

- Good work life balance
- Regular bonuses
- Company Car
- Incentives

**If you feel you have the relevant skills and experience and would like to apply,  
please email a copy of your CV to [amelia@raffertyresourcing.com](mailto:amelia@raffertyresourcing.com)**
