

Assistant Management Accountant - Southampton

Are you looking to take the next step on your journey? Do you want to be part of a business that is passionate about sustainability and the green economy? If yes, then this could be an application worth making! This is a hands-on role where you will be involved in multiple aspects of preparing monthly management accounts, performing financial analysis, preparing financial and cash forecasts and supporting management as the business develops.

We are seeking a highly capable Assistant Management Accountant who has experience of production of monthly management accounts, knowledge of financial analysis and forecasting and experience in a similar environment. You will have a good appreciation of the need to produce timely information that is both accurate and analysed with well balanced commentary on variances and trends.

The Role:

- Produce accurate product, job, and product costs.
- Produce monthly management accounts.
- Reconcile control accounts.
- Analyse financial data, liaising with senior management to produce concise, informative commentary, variance and trend analysis.
- Assist in the development and implementation of cost-effective financial policies and procedures, as well as mitigating financial risks.
- Assist in the preparation of financial reports and budgets, as well as controlling and forecasting income and expenditure.
- Ensuring accounting procedures are followed.
- Preparing information required by auditors.
- Contributing to the monitoring of financial management policies and procedures to ensure that they adhere to regulatory standards.
- Performing financial recordkeeping, as well as protecting sensitive and confidential information.
- Keeping informed of regulatory requirements and best practices in management accounting.

**If you feel you have the relevant skills and experience and would like to apply,
