

Commissioning Engineer – South

We are currently looking for an experienced AV Commissioning Engineer who has experience in commissioning, designing, and delivering bespoke AV systems. You will deal with all aspects of integrating Audio Visual systems into the clients buildings; this will encompass both hardware and software systems, performing on-site commissioning and configuration, and liaising with client contacts. It will also include designing schematics, reviewing CAD drawings, and providing all other relevant technical documentation.

The role:

- Supervising system pre-build works at client & company premises to the required standard
- Carry out testing and configuration of systems built off-site prior to acceptance testing
- Preparing acceptance testing documentation prior to client or consultant acceptance tests
- Assist in the second fix of AV systems by supplying design drawings and cable schedules to the highest possible standard
- Provide project details and equipment specifications to in-house and third-party control programmers, assisting with control system programming and any issues
- Set up, test and commission systems on-site to meet the required standards
- Completion, and where appropriate, documentation of as-built version of configuration software for DSPs, Matrixes etc
- Support the Project Managers with all technical aspects of project delivery, in documentation, liaising with 3rd parties, design drawings etc
- Provide technical support for all installed systems including technical advice to the client and other team members
- Provide technical support for on-site system maintenance, system repairs and modifications after project completion
- Provide technical information and support for Sales, Installation and Project Management staff

Experience required:

- In depth Professional AV engineering knowledge
- Communication skills - ability to deal politely and efficiently with customers both on the telephone and in meetings
- Experience in commissioning and fault-finding of complex AV systems
- An ability to work under pressure
- Close attention to detail
- Current and clean Driving License

If you feel you have the relevant skills and experience and would like to apply, please email a copy of your CV to jodie@raffertyresourcing.com
